PROJECTS

Amazon landing page clone

- This project is a static clone of the Amazon landing page, built entirely with HTML and CSS.
- The project aims to replicate the core layout, style, and structure of the Amazon home page, featuring a responsive design and a clean user interface.

Tic-Tac-Toe Game

- This is a simple Tic Tac Toe game built using HTML, CSS, and JavaScript.
- It's a fun and interactive way to play the classic two-player game right in your browser.
